## Independent Purchase Guidelines

### Minimum Device Specification

Our vision for Technology in the classroom is consistent with our College vision of providing quality learning opportunities while nurturing the development of all students in a Christ-centred community. As we invite digital transformation into our classrooms, learning becomes alive, rich, relevant, engaging and timely. Through device use in the classroom students have the opportunity to recreate, publish, remix and innovate. Technology changes quickly, and it is essential that the 'citizens of the future' are able to effectively and ethically incorporate this emerging technology into their personal and professional lives.

The College continues to place an emphasis on preparing students for contemporary learning. To maximise learning in today's technology context Faith Lutheran College, Redlands require that all students on the secondary campus have access to an appropriate digital device. All students in Years 7 – 12 are expected to bring their own device to school each day from Term 1, 2020. It is expected that these devices will meet the College's minimum specifications. As this will be the students own personal device there is the personal responsibility for purchase and arrangements around warranty, insurance and software requirements.

#### What is BYOD?

Bring Your Own Device program allows students to bring personal devices to school for use in academic work in the classroom. This enhances students interface with digital educational resources which in turn enhances learning and student productivity.

At Faith the BYOD policy stipulates that:

The device must meet the minimum specified standards

#### IT Support

As the device is a student's own personal device, students and families are personally responsible for all purchase, warranty, insurance and service arrangements.

Technical support that will be provided at the College:

- Wi-Fi connection;
- Email setup;
- Office 365 support;
- Adobe Creative Cloud installation support;
- Support of installation of other software that may be used by specialist teachers;

#### Software required

Students will need:

- Office 365 – all students are provided this for free by the College – Instructions and download can be found on Faith's 'Student Central'
- Adobe CC suite is available for download provided for free by the College – Instructions and download can be found on Faith's 'Student Central'
- PDF reader;
- Virus Protection;
- Other software may be required for specialist subjects.

*Please note: While IT Support will endeavour to support students as much as possible, as the device is a student's own personal equipment, any warranty, insurance and service arrangements are the responsibility of families.*
